### Our dog Gino

One morning we woke up very ----- and Gino was still in his ----- fast asleep. As soon as he heard us he ----- out of his basket and ----- to meet us. He came running with his ----- and was ready to play. He followed me to pick up his favourite ----- and sat patiently waiting for his -----.

After he had finished ----- he fetched his ----- and was ready to go for his ----- in the -----.

As we walked around the grass area, Gino met his ----- called Jazzy and they started running around together. They played ----- with the ----- and had a wonderful time. They ran together towards the woods and Jazzy went into the ----- . Gino decided that he did not want to get ----- so he did not follow Jazzy.

They both began to run back down though the ----- when 2 more----- appeared. Tired by all the excitement Gino and Jazzy ran towards the ----- and waited for us to put their ----- on before jumping over the ----- to go home.
